

Scarf Craft Instructions

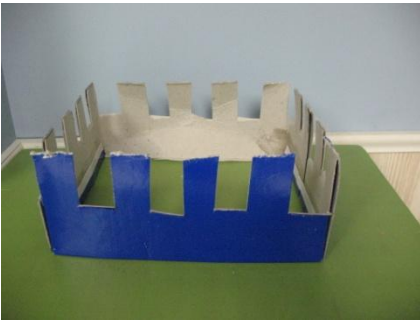

By Xiangyun Xiao

1. Material:

- (1) a roll of thick-lined yarn, suggested to buy the thickest size ones from the Michaels store;
- (2) an empty tissue box or similar size box;
- (3) scissor and tape.

2. Procedure instructions:

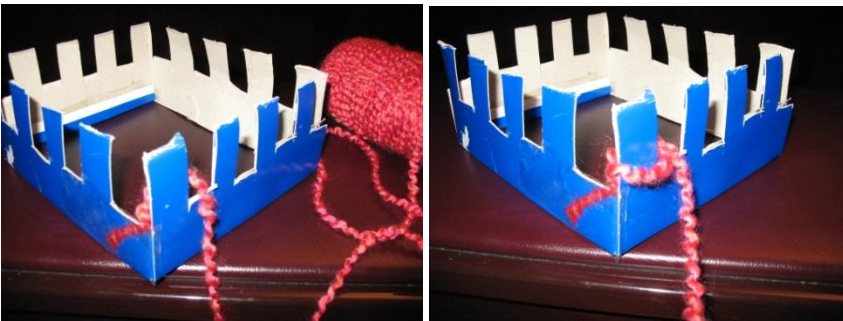

- (1) make one surface of box uncovered, then cut even-distanced teeth out of the four edge;
- (2) make the other side of same surface uncovered, box hollow;

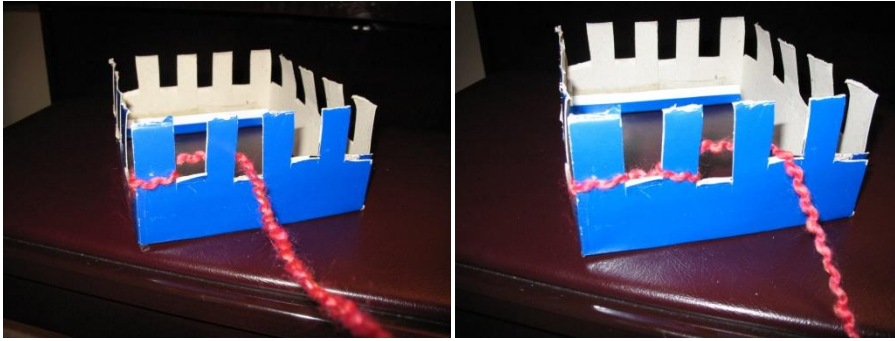

- (3) tape the yarn at one side on the box;

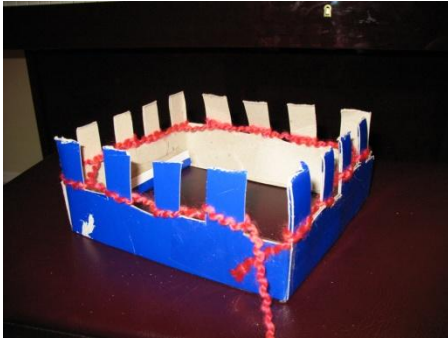

- (4) wind the yarn thread from inside and make a round by the first tooth;

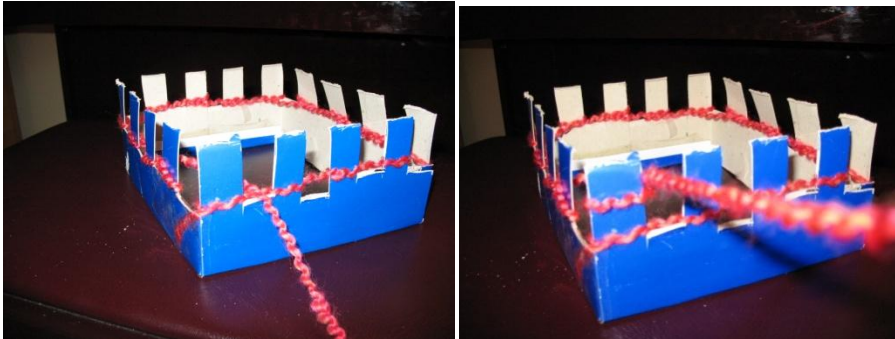

(5) repeatedly wind by circling on the second tooth;

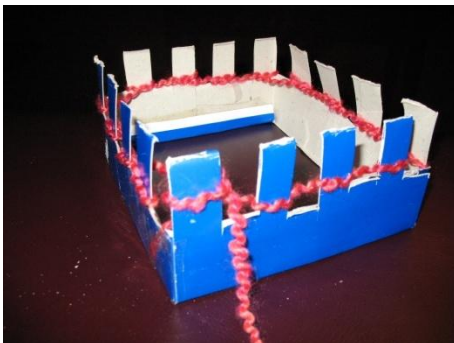

(6) repeatedly wind the same way until all teeth rounded;

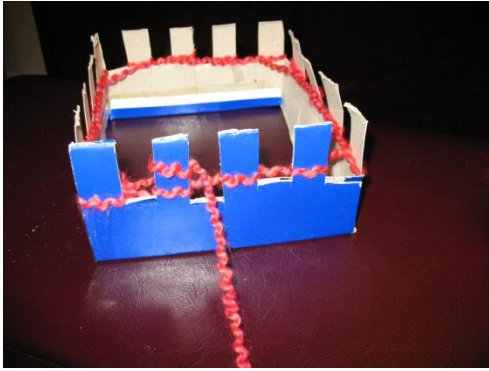

(7) wind the second round for the first tooth again;

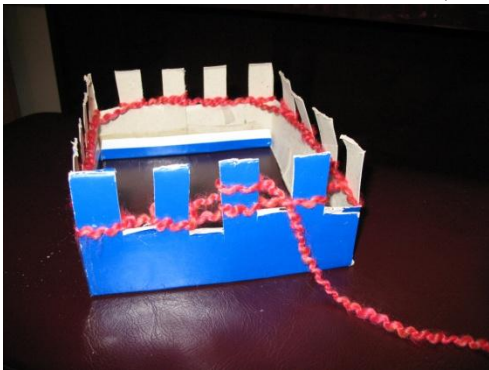

(8) put lower round on the tooth inside box, only one round(second) left on the tooth;

(9) wind the second round for the second tooth, repeat Step 8;

(10) wind for all teeth, basically repeat Step 7 and 8;

(11) repeat until enough long (thank Xiujun Duan for providing the following pictures);

(12) knock thread and a completed one done.
